

Manual de configuración MuzPA

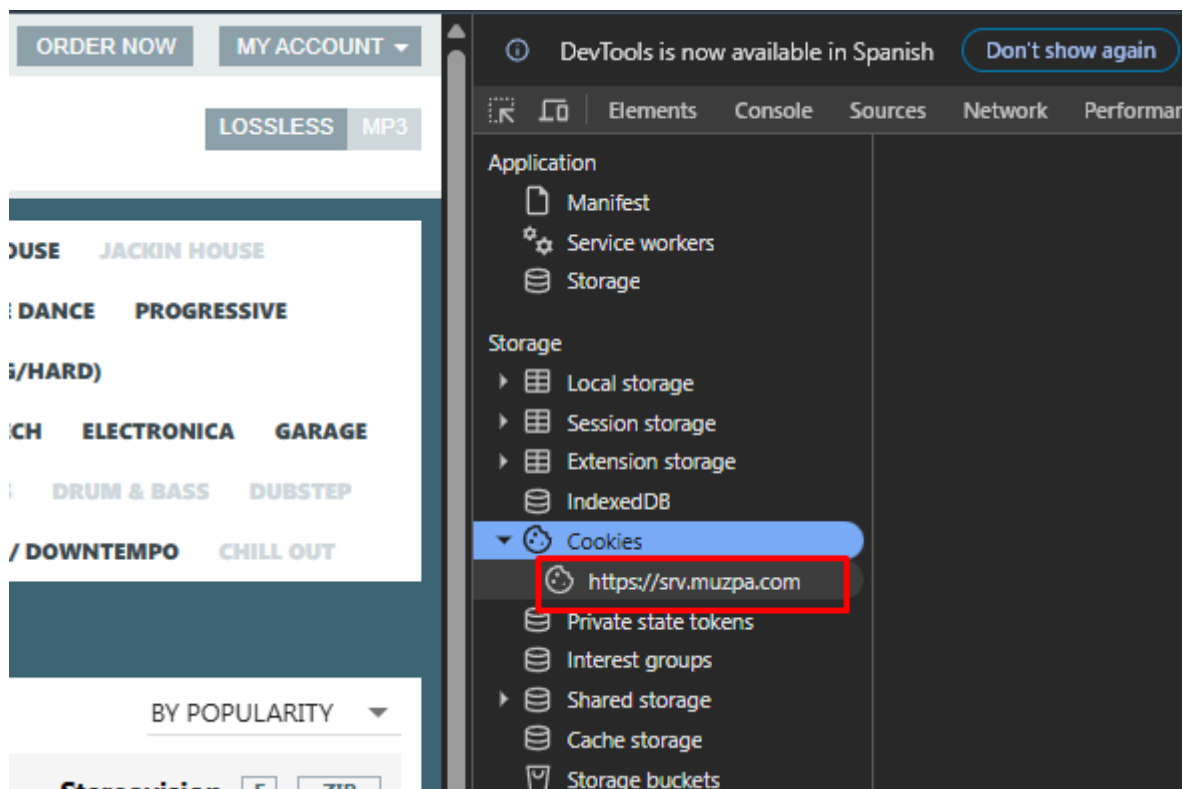

- 1) Ingresamos a la web de Muzpa y hacemos click derecho en cualquier sector de la web, clickeamos “Inspeccionar”

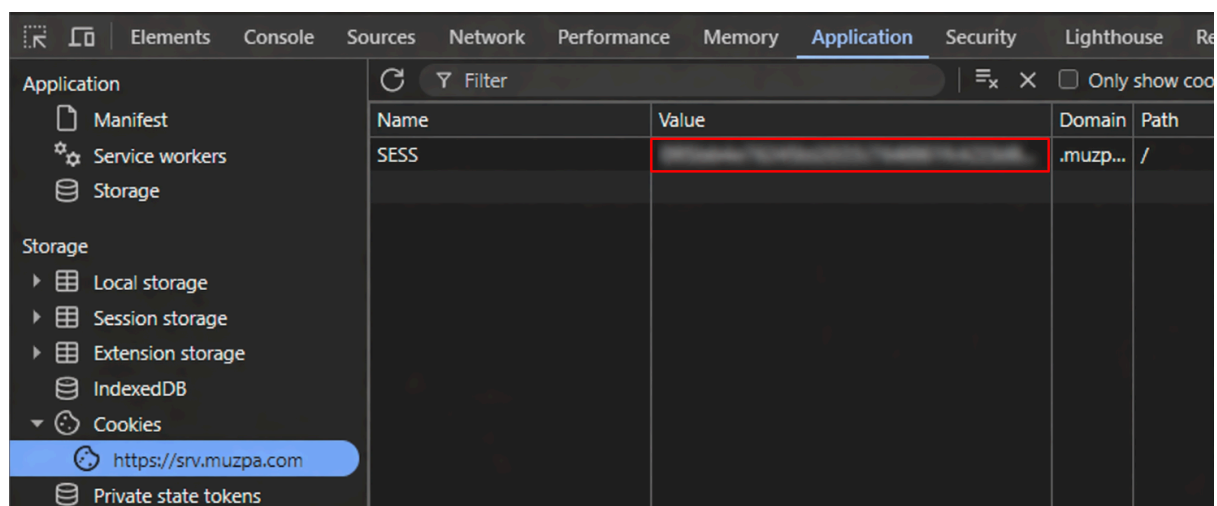

- 2) Se va abrir una consola negra con información, buscamos el apartado “Application” y lo clickeamos

- 3) Buscamos “Cookies” y clickeamos <https://srv.muzpa.com>

- 4) Seleccionamos todo lo que está dentro de la columna “Value” (haciendo doble click se selecciona todo), copiamos ese valor

5) Pegamos el valor del SESS en el apartado de Muzpa en Configuraciones

The screenshot shows the 'Configuración' (Configuration) window of the 'Track Manager' application. The window has a dark header with 'Track Manager' on the left and 'Tracks', 'Cola', and 'Config' on the right. The 'Config' tab is active. The main content area is titled 'Configuración' and is divided into two panels: 'AUTORIZACIONES' (Authorizations) on the left and 'PREFERENCIAS DE DESCARGA' (Download Preferences) on the right.

In the 'AUTORIZACIONES' panel, there are sections for 'SoundCloud', 'Spotify', 'YouTube', 'Muzpa', and 'Deezer'. The 'Muzpa' section is highlighted with a red box. It contains a label 'Session (SESS=...)' and a text input field filled with asterisks. A red box is drawn around this input field. Below the 'Muzpa' section is the 'Deezer' section with an 'ARL' label and an empty text input field. At the bottom of the 'AUTORIZACIONES' panel are two buttons: 'Guardar configuración' (Save configuration) and 'Cancelar' (Cancel).

The 'PREFERENCIAS DE DESCARGA' panel has a 'DESTINO' (Destination) section with a 'Carpeta de descarga' (Download folder) label, a text input field showing 'C:\Users\...\Music', and an 'Examinar...' (Browse...) button. Below this is an 'OPCIONES' (Options) section with a checkbox for 'Descargar EPs completos' (Download complete EPs) and a section for 'Organización de carpetas' (Folder organization) with three radio button options: 'No organizar' (selected), 'Organizar por fecha de like' (Organize by like date), and 'Organizar por fecha de importación' (Organize by import date).

6) Seleccionamos “Guardar configuracion” y ya quedo configurado correctamente.
